ACM EXPEDITE

MANAGE ACCESS TO FACILITIES ANYTIME, ANYWHERE ON A MOBILE DEVICE

ACM™ Expedite unlocks the power of Avigilon Access Control Manager (ACM) on mobile devices, empowering operators to manage access to facilities anytime, anywhere. For operators who can't be stuck behind a desk, ACM Expedite provides quick and easy access to pre-configured global actions to swiftly perform daily operations and respond to critical events while on-the-go. Securing a facility to protect people and property has never been easier.

FLEXIBLE & CUSTOMIZABLE ACTIONS

ACM Expedite provides operators on-the-go with quick and easy access to pre-configured actions on their mobile device. Simply tap to remotely grant access, lock and unlock doors, or activate a sitewide lockdown. Actions are defined by the administrator and can be tailored to a facility's access control needs.

PURPOSE-BUILT FOR UNIVERSAL USE

ACM Expedite is designed to be intuitive and easy to set-up, maintain and use by practically any employee in a facility. No formal training is required to use the app and it can seamlessly fit into existing workflows. Operators will get access to the latest features after an ACM upgrade.

CONVENIENT ACCESS

ACM Expedite puts the power of ACM in the hands of operators who can't be stuck behind a desk. Operators can quickly take control of a situation from anywhere using their Android or iOS smartphones. Tablet support will be available in a future release.

MORE FEATURES COMING SOON

This is just the beginning. More features and enhancements are coming soon to equip operators with greater control to protect people and property while on-the-go, such as: door status and commands.

GET THE APP NOW!

GET IT ON Google Play

Download on the App Store
